### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the prior art of record neither teaches nor suggests all of the claimed subject matter of claim including a power management process where driving the CPU to execute a service program of the system interrupt to synchronize an operation frequency of the system RAM with an operation frequency of the CPU at a memory address segment of the BIOS ROM. The prior art of record runs the sleep programs in a shadow ram and not in the ROM.
2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hobson et al. U.S. Patent 6,065,121, Lambino et al. U.S. Patent 6,725,384, and Sakai U.S. Patent 6,266,776 show power management process for shutting down a CPU to a sleep mode but none of them disregard the RAM and run solely off the ROM for the sleep mode program.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John R. Cottingham whose telephone number is (703) 306-3439. The examiner can normally be reached on Monday - Thursday, alternate Fridays.
